Education

- **Gurukul Kangri Deemed to be University** — Haridwar, India
  Bachelor of Technology - Electronics and Communication Engineering — *Oct 2021 - June 2025*
  Relevant Courses: *Data Structures, Programming with JAVA and Python, Object Oriented Programming*
- **Trident Public School** — Muzaffarpur, India
  Class- XII—CBSE — *Apr 2019 - Mar 2021*

Skills Summary

- **Programming Languages**: JAVA, Python, JavaScript, SQL
- **Frameworks & Libraries**: ReactJS, NodeJS, Bootstrap
- **Databases & Tools**: MongoDB, MySQL, Firebase, Git
- **Cloud & Platforms**: Linux, Windows, Web, Raspberry Pi
- **Computer Science Concepts**: Data Structures & Algorithms (DSA)
- **Soft Skills**: Leadership, Event Management, Public Speaking, Time Management

Experience

- **Yathaarth Sangam Foundation (NPO)** — Remote
  Web Development Intern (Full-time) — *Nov 2024 - June 2025*
  - **Web Application**: Developed a responsive web application using React.js and integrated Firebase services, improving data handling speed by 30% through efficient Firebase Firestore (NoSQL) database setup.
  - **Auth with Firebase**: Implemented Firebase Authentication for secure admin login, reducing unauthorized access risks by 25% and streamlining user management.
- **Aryabhatta Research Institute of Observational Sciences** — Nanital
  Project Intern (Full-time) — *Aug 2024 - Oct 2024*
  - **MongoDB Application**: Created a MongoDB-based web app using React & FastAPI, improving data processing by 40% and UI responsiveness by 25%.

Projects

- **College Fest Website** — **HTML, CSS, TypeScript, Firebase**: GitHub Link
  Engineered a dynamic college fest website using HTML, CSS, and TypeScript, integrated with Firebase for real-time updates; enhanced user engagement by 40% through improved event and sponsor visibility.

  Developed a secure Android app with unique QR-based entry verification, optimizing event management efficiency by 50% and reducing entry processing time by 60%.
- **MindTrack App** — **React, TypeScript, Tailwind, Firebase, Turso (libSQL)**: GitHub Link
  Built a cross-platform productivity application (Web + Mobile) with secure Firebase authentication and Firestore-based user profiles; implemented streak tracking, habit management, and leaderboard systems to boost user engagement.

  Developed cross-device synchronization with Turso (libSQL) APIs and Firebase, enabling seamless transitions between web and mobile apps; improved user retention by 35% and ensured privacy-conscious design with server-side data handling.

Volunteer Experience

- **Web Dev Lead at Jnanagni College Fest** — Haridwar, India
  Gurukul Kangri Deemed to be University — *Sept 2023 - Nov 2023*
  - Implemented TypeScript, Firebase, and an Android app for secure entry verification, reducing event management time by 30% and increasing security measures by 45%.
  - Enhanced user experience for over 2000 attendees through streamlined verification processes.
- **Volunteer Core Team at Google Student Developer Club, GKV** — Haridwar, India
  Gurukul Kangri Deemed to be University — *Jan 2022 - Sept 2023*
  - Actively contributed as a core team member, collaborating on initiatives and events to foster a vibrant tech community.
  - Played a crucial role in a project that reduced event setup time by 25% & increased student participation by 35%.

Certifications

- **Programming with JavaScript**: Meta — Coursera — *February, 2024*
- **Introduction to Front-End Development**: Meta — Coursera — *October, 2023*
- **Data Structures and Algorithms in Java**: Coding Ninjas — *September, 2023*
- **Problem-Solving (Intermediate)**: HackerRank — *February, 2023*
